

PRODUCT DOCUMENT

Release: 05/10/02, Rev. 1.1

DDREADER-18

Applications

- IBM compatible desktop and laptop computers
- Apple Macintosh desktop and laptop computers

Product Info

The Delkin Devices eFilm™ DDREADER-18 Reader/Writer is an external digital media drive that is able to read and write to six (6) different flash memory card standards via two slots. It accepts Compactflash™, IBM Microdrive™, SmartMedia™, MultiMediaCard, Secure Digital Card™ and Memory Stick™. In addition, the DDREADER-18 supports concurrent operation of both slots.

The DDREADER-18 is USB Mass Storage Compliant and connects directly to the USB port on your computer or laptop. Since it is based on USB Mass Storage standards the DDREADER-18 can be connected directly to a computer without the need for a device driver (Win ME, XP). CD-ROM with drivers for PC and Macintosh included.
